## ACTION FOR CHILDREN'S RIGHTS IN EDUCATION

Mindful of section 19 (2), (d) of the Zimbabwean Constitution which calls on the government to ensure that children "have access to appropriate education and training" Mukana Wedu Foundation's major thrust is to ensure that every child receives a quality education and gains the skills and knowledge they need to thrive and develop, creating equal opportunity for less privileged children.

Committed to leaving no child behind and investing in girls' education, Mukana Wedu Foundation is working to break down barriers that prevent girls from receiving education through school fees funding and provision on learning materials.

A large portion of children in deprived communities must deal with a lack of access to quality reading materials and instruction at an early age. In Zimbabwe, education in the rural segments is not only important to eradicate poverty and illiteracy, but also for a variety of other social, economic as well as cultural and political reasons. The role of education, both urban and rural, is huge in growth of the country's prosperity.

By improving education in rural areas

the livelihoods of many families can be improved and the sustainable development of communities can be increased.

With support from our valued partners, sponsors and well-wishers, Mukana Wedu Foundation is making great impact in improving early childhood education and reducing disparities in learning outcomes through its progressive Reading and ICT Programs.

As a direct result of our devoted efforts, a significant difference has been made in improving the quality of education in Ziko, Chitungwiza. Through our Reading Program and other effective education and literacy programs, we're closing existing illiterate gaps and addressing inequities in our educational system.

With ICT changing beyond recognition, continually evolving to keep ahead of breakneck technological shifts in everyday life, lesser privileged children in rural

areas are being left behind as they have lesser functional knowledge of computers.

Mukana Wedu Foundation launched ICT Program in Ziko where we are working to provide computer training to speed up digital growth in rural areas. It is important that every child is provided with sufficient opportunities to learn computer operations and take complete advantage of the evolving digitilisation situation.

Our weekend ICT and Reading Programs in Ziko are attended by more than 60 children. Up to date Mukana Wedu Foundation has funded and assisted 50 children with school fees, uniforms and stationery.

Sponsoring a child is a wonderful way to help change the life of a child in need and bring hope to his or her entire community. By sponsoring a child and giving them the tools they need to break free from poverty, we are giving them the hope and future they deserve.
